

LUDO

Official Rulebook (Test Fixture)

Overview

Ludo is a classic race-based board game for 2 to 4 players. Each player controls four tokens and races them from their starting yard, around the board, and into their home column. The first player to get all four tokens home wins.

Components

- 1 game board
- 16 tokens (4 each in red, blue, green, yellow)
- 1 six-sided die
- This rulebook

Setup

Each player chooses a color and places their four tokens in the matching starting yard. Players take turns rolling the die in clockwise order, starting with the player who rolls the highest number.

Gameplay

- 1 On your turn, roll the die.
- 2 Rolling a 6 allows a token to leave the yard and enter the board, and grants an extra roll.
- 3 Move a token forward the number of spaces shown on the die.
- 4 Landing on a space occupied by an opponent's token sends that token back to its yard.
- 5 Tokens must reach their home column by an exact roll.

Winning the Game

The first player to move all four of their tokens into the home column wins the game. Play may continue among remaining players to determine second and third place.

Notes

This document is a placeholder rulebook generated for testing the Boardwise rulebook upload and RAG query pipeline. Content is intentionally simple and does not reflect any official publisher material.
